CHEAP ADVERTISING.

THE CHARLESTON NEWS, the circulation of which is about twice as large as that of any other paper published in South Carolina, is the pest advertising medium for all business men. For persons who want situations or servants: who want houses or spartments, or have them to rent; who want or who offer board and lodging; who have lest or found articles of value. THE NEWS has no equal; and in order that all classes may have their wants supplied, we have adopted the following scale of CHHAP ADVER-TIBERENTS, payment for which must invariably be made when the order is given:

Advertisements of situations wanted by or offered to clerks, governesses, tutors, workmen, mechanics, house-servants, porters, shopboys, cooks, and washers; board and ledging wanted or offered; apartments wanted or to let; articles lost or found; houses, shops, offices and warehouses wanted or to let, and miscellameous wants of all kinds.

THE POSTOFFICE. - Two or three times within the past two months THE NEW: has had occ :sion to mention instances of neglect on the part of the employees of the Postoffice Department, but another mestance, more empablishen any before mentioned, has bean brought to our notice. A prominent business house in this city, on yesterday, was handed a letter written in Walterboro' on the 10th of July; another from New York, dated July 1; and twe others m Baltimore, from two distinct parties, dated July 9. Nearly two months for a letter to some ess than a hundred miles is quite a long time.

"MANY MERCHANTS" AND "NEW COTTON."-We published yesterday a letter from Plorence, signed "Many Merchants," containing the following statement:

In your columns of 25th instant, the sale of two bles of new cotton was reported to have been shipped from this place by A. W. Loyues, and consigned to Mr. A. J. Salinas, and sold at

Allow us, the merchants of this place, to inform you and the readers of your paper, that there has not as yet been any new cotton ship-ped or bought in this place this season. The cotton alieded to was oldspatton belonging to Q. J. W. McCall, of this county, and sold as

As this statement was calculated to throw some blame upon the factor who sold the cotton, we made careful inquiry into the faces of the case, which are these : Mr. A. W. Loynes, of Florence, told Mr. Salmas some time ago that he would send him the first bale of new cotton which came into Florence. The two bales in dispute were shipped by Mr. Loynes to Mr. Saliuas, who was advised by telegraph. Mr. Loynes did not, however, say in the dispatch whether the cotton was old or new When the two bales were received they were sampled by an experienced sempler, and proed to be new cotton. They were afterwards examined by one of the oldest cotton buyers in he city, who also pronounced them to be new cetton, and as new cofton they were sold. These are the facts, and they show anat Mr. Salinas was ful y justified in selling the cotton as he di . Indeed, the whole matter lies between the seller and the buyer, both of thom are satisfied; and unless there is some personal spite in the matter, we see no reason

why this "Many Merchants" should have been

THE APPRAISEMENT OF REAL ESTATE.

The following bill was introduced by Alderman Voigt at the last meeting of the City Council, and read a first time: A BILL TO APPRAISE THE BATEABLE PROPERTY OF THE CITY OF CHARLESTON, AND FOR OTHER

THE CITY OF CHARLESTON, AND FOR OTHER PURPOSES.

Whereas, The fundamental principal of justice to all, in the levying of taxes for the maintenance of government and good order, depends essentially upon equitable appraisement of all the rateable property of the community; and whereas it is known that great discrepacy now exists in the appraisement of real estate in the city, and to the end that the evil may be corrected and justice done:

Be it ordained by the Mayor and Alderman of Charleston, in City Council assembled, and it is hereby ordained by authority of the same, that a commission of three citizens be appointed the Mayor and Committee ou Assessment, one of whom shall be a carpenter, and another a brick mason, each of whom shall be known and approved as competent contrac-

The appraisement of all lots shall be as to their front and depth—the land in each block or square being first fixed in value, after due consideration of its locality and surrounding advantages; but the buildings thereon shall be valued at what it wou'd cest to erect them at time of appraisement, making due allowance for age and decay; but should this commission tail to agree by being equally divided as to the value of any real estate, then the Committee of City Council on Assessment, or any one of them, shall be an umpira therein, beyond which there shall be no appeal but by written statement of grievance, sworn to before a magistrate, to be submitted to the Mayor and Council for their consideration, whose decision shall be final in all such cases.

The said commissioners shall enter in a book prepared for that purpose by the city saesessor, the number of each lot, the dimensions thereof as to front and depth, and kind of house or building thereon, if any, whether of brick or of wood, and the number of stories high, and the appraised value thereof.

A FEMALE IMPOSTER.-For some time past a young, neatly dressed woman has been engaged in swindling our citizens. She would go to a house and ask to see the lady of it, and, on her being presented, would request money, which she asserted was to be devoted to relieving the wants of a poor sick family-said family always living in an out-of-the-way place and a long distance from the house the impostor was visiting. If the lady of the house desired to know the name of the afficted family she would reply that she would not tell it for the world, that it was once a very distinguish ed family, and even now, though in poverty, the members would not let it be known that they were in need, and as an act of kindness she had determined to solicit aid for them. If the lady of the house had not money, the applicant asked for coffee, tea and sugar. She generally received money or these articles, and with profuse thanks departed. In a certain neighborhood her visits became too frequent and she was watched. This course led to her Another instance of the beauties of Radical rule.

The Pilot Question.

TO THE EDITOR OF THE NEWS. In the public proceedings of the Chamber of Commerce, the committee in relation to the pilots informed their body that communica-tions had been received from masters of ves-sels complaining of the incompetency of seve-

ral newly appointed priots. It would have been but an act of justice on the part of the committee to have given to the public the names of those who had been complained of, so as not to have lett a matter of

plained of, so as not to have left a mutter of such paramount importance to the public interest to conjecture.

We have, since our appointment under the Board of the Commissioners of Pilotage, been engaged in the discharge of our duty, and no complaints have reached us of the want of skill and knowledge; but, on the contrary, have received full assurance of our capacity and fit ness from masters of vessels. We regret to intrude upon the public our grievances, but are compelled to do so to avaid the wholesale imputation of the committee on newly appoint-

The Inspector called a meeting of flour merchants it is true, but it is not true that he proposed to sumit to dicts:100. Some flour mer chants met it is true, but it is not true that the class met as a body. Those who did not entirely agree, and the grades dictated by some of them were not supported by the universal voice the subscriber has inspected the grades referred to, and pronounce them below the standard. They are still in his possession and over the grammation. Some of the inverse conpen to examination. Some of the judges concar io his opi non.

It is, therefore, not to be wondered at that

the writer in yesterday's News, who is evidently not over twenty-five, should advocate the discontinuance of an office which conflicts with his—thirty ver's experience! this—thirty year's experience!

The subscriber did not say that some of the our merchants were "incompetent to advise,

but they are to dictate.

As the communication is not that of the flur merchants in general, this reply would be unnecessary, were it no for my desire to pro-tect the public from individual dictation.
